Subject: RE: KL Ave. Landfill Site Gas Well Connection Repaired

Hello Everyone,

Bill- Thanks for the update. Your plan to contact the residents at Wickford with accurate information is prudent. Please share the sampling results from the wells at Wickford when they become available.

Thanks Again.

Wally

Subject: KL Ave. Landfill Site Gas Well Connection Repaired

Good afternoon Shari & Wally,

I wanted to inform you of the following:

1. We (via Co. Heath Dept.) received some requests from selected residents in Wickford to sample/test their wells; namely 1490 Wickford who was talking to the resident at 1565 Wickford (the house that was just sold); 1531 Wickford (Mr. Jon Orr - who I believe lives next door to Mr. Eklov; and 1497 Wickford (Kristina Wirtz). I told the Co. Heath Dept that we would sample them – with other residential wells during this event. Also, considering someone seems to be providing mis-information about water quality and also hookups in the area – we are considering sending a letter to residents in Wickford (outside of the proposed zone) – in an effort to update them on things (with correct information). Perhaps inviting those residents to the availability session for the ESD would be appropriate though.
2. Also, I received a message from Golder that the gas well connection that we observed loose/disconnected was repaired last week. In additional - there was some damage to the fence from a fallen tree at the northwest portion of the site – which we will be following up soon to repair.

Kind regards

Bill
